

# BEEPER ALARM

BEEPER FX  
(ref: FX1001N)

## The most HI-TECHNOLOGY of all the car alarm pagers !

The BEEPER FX is the most powerful and the most efficient of all the alert systems at distance. It will alert you from 4 to 6 detection zones to a range of 900 meters (according to the environment), it will tell you continuously its range.

Composition : » 1 transmitting main unit (independent / easy to install)  
» 1 receiver LCD (liquid crystal display / design)  
» 1 belt-clip (removable)  
» 1 windscreen antenna (discreet)

Functions :

- . Range 200 from 900 meters (according to the environment)
- . Universal (can be used alone or in additional of most of car alarms)
- . 4 fixed detection zones :
  - . doors
  - . hood
  - . trunk
  - . engine starting
- . 2 optional detection zones (installation on alarm or optional sensor)
- . Live visualization on the display LCD of the alert events
- . Automatic activation (cut-off of the ignition or activation of the alarm)
- . Permanent test of the range after the activation (appearance & disappearance of the antenna icon on the display)
- . Distinctive melodies according to the alerted zones
- . Alert by bips of entry & exit of the range
- . Digital clock and alarm are programmable
- . Display LCD with liquid crystal high definition backlite
- . Choice of vibrator & distinctive alert melodies

The BEEPER FX exists with electromagnetic sensor  
ESS2 (shocks, windows, lift up)  
BEEPER FX ESS2 (Ref : FX 2001 N)
