ALARM

BEEPER FX ESS2
(ref: FX 2001 N)

electromagnetic sensor of
the shocks,
glass-breaking, lift up.

The **SILENT** car alarm system which supervise for you 6 zones at a distance

The **BEEPER FX ESS2** is the most powerful and the most efficient of all the alert systems at distance. It can be used alone on the vehicle, it will supervise 6 zones for you and will alert you at distance of a breaking-in attempt to a range 900 meters ... It is a real silent alarm system !

Composition :

- » 1 transmitting main unit (independent connector/ easy to install)
- » 1 receiver LCD (liquid crystal display/ design)
- » 1 electromagnetic sensor **ESS2** (shocks, glass breaking, lift up attempt / 2 levels)
- » 1 belt-clip (removable)
- » 1 windscreen antenna (discreet)

Functions :

- . Range from 200 to 900 meters (according to the environment)
- . Universal (can be installed alone or in additional with most of the car alarms)
- . 4 fixed detection zones :
 - . doors
 - . hood
 - . trunk
 - . engine starting
- . 2 sensitive detection zones on captor **ESS2** (pre-alert - light shock -> 1 flame on the screen / alert - heavy shock -> 3 flames on the screen)
- . Live visualization on the screen LCD of the events of alert
- . Automatic activation (Ignition cut off or alarm activation)
- . Permanent test of range after activation (appearance & disappearance of the antenna icon on the display)
- . Distinctive melodies according to the alerted zones
- . Alert by siren chirps of entry & exit of the range
- . Programmable digital clock and alarm
- . Display LCD with liquid crystal high definition backlite
- . Choice of vibrator & distinctive alert melodies
