ALARM

BEEPER BOOMERANG®  
new generation  
(ref: B1 ou B2)

## New BEEPER BOOMERANG® : Your car will never be alone ...

*the new system BEEPER BOOMERANG® is more than a simple car alarm : it offers functions of interactive security, of electronic comfort, of alert at distance and of remote controlled starting... A blend of high technology in a LCD remote control.*

*Composition :*

- » 1 remote control (LCD : coloured liquid crystal display)
- » 1 main unit (independent connectors & wires in colours)
- » 1 communication module (interactive alert module at distance)
- » 1 ultrasonic sensor module (ultrasonic with doppler effect)
- » 1 battery back-up siren (micro-siren with 2 supports / 118 dB)
- » 1 sensor ESS2 (shocks, glass-breaking, lift-up with 2 levels)

*Functions :*

- » Two-way transceiver
- . Colour liquid crystal display screen
- . Back-lightening of the screen (Fluorescent blue)
- . TUNE or VIBRATOR mode
- . New generation look & ergonomics
- . Emission range : 500 meters
- . Reception range : 1 000 meters (and more)
- . Continuous range test
- . Visualisation on LCD screen of all the events occurring on your vehicle
- . Direct programmation of all the functions with the remote control
- ... and more functions to be discovered ...
