

BEEPER

ALARM

GIGA CLASSIC alarm
(ref: GC101)

The only SRA classified alarm system for small engined motorcycles

The alarm system for motorcycles and scooters - GIGA CLASSIC (GC 101) - is the only motorcycle alarm available on the market which is agreed by the insuring companies (SRA grading) for small engined motorcycles (< 50 cc).

Composition :

- » 2 remote controls (2 buttons / waterproof / self-programmable)
- » 1 siren / power station (power station / small size / integrated shock sensor)
- » 1 siren (waterproof / reduced size / 110 dB power)
- » 1 bundle (waterproof connection)
- » 1 LED / 1 switch (possible urgent stop thanks to a code)

Functions :

- . Electronic shock sensor
- . Engine starting detection
- . Waterproof 110 dB electronic siren (piercing sound)
- . Integrated engine cut-off (ignition)
- . Panic and anti-attack function
- . Non-scannable coded remote controls (waterproof)
- . Valet mode (after 3 days of non using, complete energy economy system)
- . Feeding system protection / Non volatile memory (if the battery is disconnected)
- . Line for a BEEPER Classic (option - Ref : CL 1001)
