

BEEPER ALARM

BEEPER LCD
(ref: LCA 2001)

Transmitting main
unit & antenna: all in
one

A LCD display car alarm pager which sounds like a siren !

The BEEPER LCD is an economic compromise for the alert at distance in case of a breaking-in of your vehicle, its test of range tells you the efficiency of the system and its display LCD visualize the breaking-in in live

*Composition : » 1 transmitting main unit / antenna all in one (very small size / easy to install)
» 1 receiver LCD (liquid crystal display / design)
» 1 belt-clip (removable)*

*Functions : . Range from 100 to 500 meters (according to the environment)
. Universal (can be used alone or in additional with most of the car alarms)
. 2 protection zones
. Automatic activation (ignition cut off or activation of the alarm)
. Test of range during 5 minutes after the activation
. Alert siren sound & bips*

The BEEPER LCD also exists in kit with optional sensors :

• LCA 2002 : BEEPER LCD with
electromagnetic sensor of the shocks,
glass-breaking, lift up.

• LCA 2003 : BEEPER LCD with
ultrasonic sensor
